**Bringing Faith, Fire & Freedom to this Generation!**

Dec. 22, 2009

## **“2010... a year to remember”**

A new freshness is coming to the body of Christ and a new awareness of the “unseen” things of God and His Kingdom. The previously unknown and unseen will be made more evident to those who are searching. This year’s revelations will be determined (as in the past) by people’s hunger for truth. While religiosity has proven what it cannot do to satisfy the cry of humanity, the truth of God’s Word will be the cure. Truth will be made more evident as we reach out to Him for it. Only the hungry will advance in the unseen and previously unknown things of the Spirit this coming year. How hungry are you?

***A new freshness is coming by way of revelation concerning the Church’s responsibility for the world around them.*** The Church has thought if God wants something done in the earth He will just do it. This is not supported by scripture. The Church has been given the key’s to the Kingdom and is responsible for the administering of its authority in the earth. Many have thought God’s goodness alone would prevent many of the evils that are manifesting throughout the land. If this were true, there would be no communism, marxism, socialism or any other ungodly system in place today.

***Seeing things in the spirit will be more prevalent as believers exercise their privileges in Christ.*** The spirits of men and women have been imprisoned by wrong mindsets, tradition, religion and erroneous teachings that promoted blindness to the ways of the Spirit. This will begin to change this year as the truth of God’s Word is brought forth in a fashion that enables saints to apply it on a daily basis. God ideas will give way to old patterns of thought while God’s people are exercised in prayer.

***Praying in the Spirit will be a necessity.*** Satan’s kingdom will be encroached upon as saints are given new ways of thinking while praying in the Spirit. The unveiling of evils not previously known will take place for believers. This will create the need for the exercise of spiritual authority. Revelation knowledge (something revealed to your spirit) empowers us to speak and act intelligently against the works of darkness. These revelations will only come by time spent praying in the Holy Ghost. Executed authority will stop the enemies plans and prevent further advancement.

***A new vibrancy will manifest in the saints as they begin to experience God's power in new ways.*** Vibrancy comes from the spirit of a man or woman that is illuminated by God. As we continue to develop in our awareness of the spirit realm, revelation of His **present** power will overcome the feelings of powerlessness. There will come a buoyancy to the saints expectancy as they see victory being theirs now. Revelation concerning faith and His power will be magnified this year enabling the saints to walk in a new realm of power and manifestation of the Kingdom for everyday life.

Praise God! I want to encourage you to not forget about the harvests that are coming your way from 2009. 2009 was and is to be a year of harvests. Stay in faith for what you are believing God to do for you and your loved-ones. While some harvests are slow coming...they are still coming! We love you and are excited about the things God is doing. His wonders are still being performed for those of us who walk by faith and not by sight.

Advancing His Kingdom together,

Lon May
