

Prophecy for Word & Spirit Fellowship
12-31-13

Demonstrations like never before, moves of God in the services not seen before, word of mouth will spread of the signs and wonders that people will see with their own eyes. People will come from near and far as they hear of my power in this place I am setting up. Azuza street is back only in greater manifestations and power.

This that I do this time will cause all foundations to be shaken apart. All that's not built on me will not stand. This that I do now is far more reaching then men's minds can comprehend and those living out of their spirit man will understand my workings. Only those with a firm foundation in me will not be shaken.

This is the day of great power, My power, and as you learn to walk more in this power it will be turned up in your lives and greater and greater works shall be accomplished by My power through your hands saith the Lord.
